PROFILE

35% more performance. 50% less manual work. 4 projects delivered on time. Full Stack Developer with HTML · CSS · JavaScript · PHP · MySQL stack in production. I integrate generative AI and orchestrate agents with Claude Code and MCP in real development workflows. Adding React and Next.js to the stack in 2026. Available immediately.

WORK EXPERIENCE

Jan 2026 – Present

Full Stack Web Developer (Freelance), Autónomo · Carrodilla, Luján de Cuyo, Mendoza

- I improved the performance of 3 sites by 35% (Lighthouse 58 → 91) by optimizing CSS, JavaScript and technical SEO.
- I delivered 4 web projects with 100% on-time completion, managing the code on GitHub with agile cycles.
- I reduced manual work by 50% by integrating generative AI and agents (Claude Code, MCP) into client workflows.

Dec 2019 – Dec 2025

Production Operator, Avícola Luján S.A. · Mendoza

- I trained 3–4 new operators per year, speeding up their integration into the position and reinforcing team discipline.
- I worked under pressure, meeting production deadlines with 0 quality errors for 6 years.

EDUCATION

2025 – 2026

Full Stack Programmer, Newton Escuelas de Capacitación · Mendoza

- 150 in-person hours.
- Full stack: HTML, CSS, JavaScript, PHP and SQL.
- I led the final project: a business management system to manage clients, projects, employees and progress, with an integrated chatbot that routes each query to the corresponding department.
